## **Sustainable Development Policy**

Responsible Leadership is one of the cornerstones of our business. We're committed to a programme of sustainable development and corporate social responsibility. Our aim is to minimise the negative impacts and maximise the positive impacts on the areas we visit.

We understand that carbon emissions from the travel industry are contributing significantly to climate change.

To combat this we are monitoring and reducing our office carbon footprint; encouraging our groups to travel overland wherever possible; making groups aware of how to travel responsibly; and making it easy for groups to offset their carbon emissions.

We have a wide range of in-house schemes aimed at making ourselves more sustainable. These projects are fully supported by the senior management and all staff.

We encourage suppliers to take a proactive approach to sustainable development and seek to use local businesses wherever possible.

Travelbound are involved in a wide range of community projects in the Brighton area, raising money for charity and supporting schools.

For more information about our commitment to sustainability and promoting green school travel issues please contact our sustainability specialist, Rob Perkins on: 01273 265 252 or [Rob.Perkins@travelbound.co.uk](mailto:Rob.Perkins@travelbound.co.uk). Rob holds an MSc in Ecotourism and will be only too happy to help.

Thank you for taking the time to read this document.
